

Earth Wall Products (EWP) is a growing company in the expanding retaining wall industry. We aim to be the one-stop-shop for all grade-change solutions. We move quickly, solve high-value problems, and continually push ourselves to optimize every situation for our customers. Our typical customers include State DOT's, Local Municipalities, Commercial contractors, and others. Our retaining wall products support mainline interstate, mainline railroad, bridges, and buildings all over the US and Canada.

EWP is looking for a WELDER/FABRICATOR to support our team in our Smyrna, GA Office. Shift is Mon-Fri 7:30 A.M. – 4:00 P.M.

REQUIREMENTS

- MIG Welder Operation
- Plasma cutter operation
- Forklift operation
- Ability to read and interpret blueprints
- Work in a safe, efficient manner, adhering to company safety policies.
- Hard-working self-starter that goes the extra mile daily, not just when it fits their schedule.
- Focused worker who takes pride in their performance.
- Desire to succeed with a strong attention to detail
- Team-player that aims not to promote themselves, but further the company.

PHYSICAL REQUIREMENTS

- Must be able to stand a minimum of 7.5 hours a day
- Ability to regularly lift and carry parts from 5-45 lbs. Occasionally up to 60 lbs, Hoists are available.
- Frequent twisting, reaching, grasping and bending.
- Ability to see blueprints, measuring tools and paperwork. Ability to write to complete paperwork

Preferred Experience

- Experience in a manufacturing environment
- Technical degree in welding or high school or postsecondary technical education coursework
- Angle grinder operation
- Magnetic drill operation
- Metal cutting band saw operation
- Measuring parts
